Latest News

• 31 October 2016 - The U.S. Army Corps of Engineers announced today the issuance of a new Regulatory Guidance Letter (RGL) 16-01 regarding "Jurisdictional Determinations." The RGL explains the differences between approved and preliminary jurisdictional determinations (JDs) and provides guidance to the field and the regulated public on when it may be appropriate to issue an AJD as opposed to a PJD, or when it may be appropriate to not prepare any JD whatsoever. The Corps reaffirms its commitment to continue its practice of providing JDs when requested to do so, consistent with the guidance in the RGL. The RGL is available here and a set of Questions and Answers and other supporting information can be found here.

• 1 June 2016 -- The U.S. Army Corps of Engineers (USACE) announced today it is seeking comments on its proposal to renew and revise 50 nationwide permits for work in wetlands and other waters that are regulated by Section 404 of the Clean Water Act and/or Section 10 of the Rivers and Harbors Act of 1899. The proposed set of revised nationwide permits was

Regulatory (Permits)

The Department of the Army Regulatory Program is one of the oldest in the Federal Government. Initially it served a fairly simple, straightforward purpose: to protect and maintain the navigable capacity of the nation's waters. Time, changing public needs, evolving policy, case law, and statutory mandates have changed the complexion of the program, adding to its breadth, complexity, and authority.

The Regulatory Program is committed to

Jurisdictional Information

9 October 2015 - the Sixth Circuit issued an order staying the new Clean Water Rule nationwide, pending a determination by the court on jurisdiction to review the rule. Thus, the Clean Water Rule is stayed, and the prior 1986 regulations are in effect nationwide. USACE and EPA are evaluating the order and its implications for the litigation that is currently pending in district courts. In the meantime, USACE is not implementing the Clean Water Rule, and is using the 1986 regulations and applicable guidance (those in effect prior to August 28, 2015) in making jurisdictional determinations or taking other actions based on the definition of "waters of the United States."
